

Cleaners & Degreasers

Contact Cleaner

Cleans light contaminants such as dust, lint, moisture and light oils. Plastic safe, non-chlorinated, non-staining, non-corrosive and non-flammable. Does not contain any known ozone depleting substances or VOCs.

Part No. 03070 - 16 oz. aerosol

Heavy Duty Degreaser

An extremely effective degreaser removes stubborn soils for more efficient equipment operation. Contains no 1,1,1-Trichloroethane or any other known ozone depleting compound. Has no flash or fire point. Non-conductive, non-corrosive and non-staining.

Part No. 03095 - 20 oz. aerosol

Part No. 03096 - 1 gallon

Part No. 03097 - 5 gallon

Duster™

Removes dirt and dust from any surface without damaging sensitive components or surface finish. Duster penetrates into cracks and crevices to remove contaminants that normal hand dusting cannot reach. Non-Flammable, plastic safe and residue-free.

Part No. 14085 - 12 oz. aerosol

Quick Clean™

A unique alternative to 1,1,1-Trichloroethane. Removes grease, oil and dirt from parts and equipment. No flash or fire point. High dielectric strength of 37,500 volts. Leaves no residue. Non-conductive, non-corrosive and non-staining. Non-Flammable, VOC exempt and contains no Class I or Class II ODC's.

Part No. 03180 - 20 oz. aerosol

Engine Degreaser

Quickly lifts grease and grime off engines for cooler, more efficient running. Leaves no residue. Easy to use. Just spray on and rinse off. Not for use in CA or OTC compliant states.

Part No. 05025 - 20 oz. aerosol

Corrosion Inhibitors

Zinc It®

Zinc It® actively fights rust and corrosion with a film of 95% pure zinc. Protects base metal even when scratched or abraded. Excellent touch-up for damaged galvanized coatings. Hot dip protection with on-the-job convenience. Excellent weldability.

Part No. 18412 - 16 oz. aerosol

SP-400™

A firm, waxy film which is highly resistant to humidity and salt spray, and never becomes brittle. Long term protection (up to one year outdoors) for all metals during shipment or extended storage. Can be diluted or removed with petroleum solvents.

Part No. 03282 - 16 oz. aerosol

SP-350™

SP-350™ provides both superior lubrication and heavy duty corrosion protection for metal parts that are stored indoors. Promotes easy start-up of stored equipment. SP-350™ displaces moisture and protects metals with a thin, non-drying film. It protects equipment and parts for up to 2 years indoors.

Part No. 03262 - 16 oz. aerosol

Part No. 03266 - 5 gallon

Wasp & Hornet Killer Plus™

A fast-acting, high strength insecticide that knocks down and kills wasps, hornets, yellow jackets, and bees. Contains no CFCs, 1, 1, 1-Trichloroethane, or any other chlorinated solvents. Contains no known ozone depleting compounds. Plastic safe, high dielectric strength of over 40,000 volts.

Part No. 14010 - 20 oz. aerosol

Minute Mend™

A two-part epoxy putty packaged in a one piece stick. Formulated to bond to both wet and dry surfaces and can even be applied under water. Ready to use in less than one minute.

Part No. 14071 - 2 oz. stick

Lubricants

Lubricants

CRC 2-26®

CRC 2-26® is a versatile, plastic safe, multi-purpose precision lubricant, penetrant and corrosion inhibitor. It's unique viscosity allows it to cover more surface area and penetrate deep into the surface of all metals, including steel, copper, brass and aluminum alloys. 2-26® displaces moisture and leaves a thin, long lasting film to protect against corrosion.

Part No. 02005 - 16 oz. aerosol

Part No. 02006 - 1 gallon

Part No. 02009 - 5 gallon

Dry Moly-Lube

CRC Moly Lube is a dry film lubricant fortified with Molybdenum Disulfide that reduces friction and improves overall operating performance. Moly-Lube bonds instantly to metal, rubber, plastic and most substrates to form a dirt repelling barrier that lubricates and protects the surface from pressure and friction. Withstands temperatures up to 650° F and extreme pressures, as well as water and chemical attack.

Part No. 03084 - 16 oz. aerosol

Screwloose® Penetrating Oil

A non-compromise penetrant that attacks corrosion and frees corroded parts. Frees and lubricates seized or binding mechanisms. Facilitates fast and easy disassembly of mechanical components, fittings, assemblies and other fasteners. Clear formula—contains no dyes and leaves no mess. VOC compliant.

Part No. 03060 - 16 oz. aerosol

Cutting Oil

Thread cutting lubricant for use on all types of metals including brass, copper and aluminum. Reduces heat and friction to ease cutting and increase cutting tool life. Clings even to vertical surfaces. Sulfur-free, low odor formula. Compatible with all manual and motor driven threading equipment.

Part No. 14050 - 16 oz. aerosol

Food Grade Silicone

A dry film lubricant that eliminates sticking and binding, while protecting metal, plastic and other surfaces. Harmless to most rubbers and plastics. Meets FDA regulation CFR 21-178.3570 for incidental food contact.

Part No. 03040 - 16 oz. aerosol

White Lithium Grease

A high-purity NLGI Grade 2 lithium based grease. Excellent heat and water resistance. Contains rust and oxidation inhibitors for superior metal protection. Smooth, buttery consistency provides optimum surface coverage.

Part No. 03080 - 16 oz. aerosol

Extreme Duty Silicone

Premium grade silicone lubricant. For use on all metallic and non-metallic surfaces. Reduces friction and galling even on metal-to-metal contact areas. Clear, non-staining, odorless film resists moisture. Withstands high temperatures (-100° to 450° F) and pressure (1,200 lbs. Falex test).

Part No. 03030 - 16 oz. aerosol

CRC 3-36®

Multi-purpose lubricant, penetrant and corrosion inhibitor. Displaces and seals out moisture. Penetrates through corrosion to loosen frozen parts. VOC compliant.

Part No. 03005 - 16 oz. aerosol

Part No. 03006 - 1 gallon

Part No. 03009 - 5 gallon

*Case quantity and hazardous material charges may apply to some CRC items.
